

## Special Issue

# Chronic Non-Infectious Diseases with a High Impact on the Central Nervous System

### Message from the Guest Editor

The incidence of certain brain diseases, such as Alzheimer's disease, Parkinson's disease, multiple sclerosis, and stroke, is expected to increase in the coming years. In addition, the occurrence of metabolic diseases such as diabetes and hyperlipidemia, which have a significant impact on the CNS, increasing the risk of stroke and causing cognitive deficits, learning difficulties, motor dysfunctions (due to damage to the motor pathways), and mental disorders such as anxiety and depression, is also expected to grow. Continued research and improved healthcare strategies are needed to effectively address the projected increase in the CNS diseases. This Special Issue of Brain Sciences seeks original research, short reports, reviews, and commentaries on the following: (1) risk factors and prevention, (2) etiopathogenesis and disease mechanisms, and (3) innovations in the field of diagnosis and therapy of chronic non-communicable diseases that affect the brain and spinal cord.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

#### Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
