Special Issue

The Rehabilitation of Neurologic Disorders

Message from the Guest Editor

The rehabilitation of neurologic disorders is a rapidly evolving field, offering hope and improved quality of life to millions affected by conditions such as stroke, traumatic brain injury, and neurodegenerative diseases. Innovative therapies and advanced technologies are driving significant progress in restoring function and enhancing recovery. This Special Issue seeks to highlight the latest research, clinical practices, and technological innovations in neurologic rehabilitation. We aim to provide a comprehensive overview of strategies that promote neural recovery, improve motor and cognitive functions, and, ultimately, transform patient outcomes. Contributions exploring novel rehabilitation techniques, evidence-based practices, and interdisciplinary approaches are particularly welcome. We invite you to contribute to this Special Issue and share your valuable research and insights. By advancing the science of neurologic rehabilitation, we can collectively enhance treatment options and outcomes for patients around the world

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney
Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA 15260, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYNDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
