Special Issue

Brain Bases of Conscious Awareness and Self-Representation

Message from the Guest Editors

What is consciousness? What is the self? How do they relate to one another? While philosophers have pondered upon these questions for millennia, scientists have only recently been able to explore the connection quantitatively through lesion studies, electrophysiology, and measurements of the brain's activity.

For this Special Issue, we aim to bring together cuttingedge research on the neural mechanisms of consciousness and conscious awareness, as related to the self, as well as self-representation in the brain. We welcome contributions from psychology, neuroscience, psychiatry, and philosophy that address typical brain function or psychopathology in development and across the lifespan. We are accepting scientifically rigorous and novel original papers on behavioral, psychophysiological and neuroimaging data, as well as reviews and metaanalyses.

Guest Editors

Dr. Istvan Molnar-Szakacs

Research Institute of the McGill University Health Centre, Montreal, QC, Canada

Dr. Lucina Q. Uddin

University of Miami, Coral Gables, FL, USA

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA 15260. USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYNDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
