

Special Issue

Brain–Microbiome Interactions

Message from the Guest Editor

This Special Issue on brain–microbiome interactions is focused on, but not limited to, understanding the effect of the microbiome on brain activity, brain-related disorders, and mental health and on developing new cutting-edge techniques for studying the brain–microbiome relationship. I invite authors to submit original research papers (clinical and translational) and methodology research papers, as well as reviews and perspectives that provide guidance to investigate the relationship between the brain and the microbiome.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
