

Special Issue

Sustainable Interventions for Improving Standards of Care in Neurology

Message from the Guest Editors

In this Special Issue of Brain Sciences, we aim to present a collection of manuscripts on a variety of topics related to diagnosis, acute care, neurorehabilitation and long-term support for patients with neurological disorders. Findings shall be integrated to showcase sustainable options for improving standards of care in neurology and related fields. We hope to ultimately facilitate enhancing the health-related quality of life of individuals suffering from neurological conditions in the post-pandemic healthcare paradigm.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
