Cervical Myelopathy: Current Hurdles and Future Perspectives

Message from the Guest Editors

Cervical Myelopathy: Current Hurdles and Future Perspectives is now open for submission. Our aim is to focus on the current knowledge on the development and progression of cervical myelopathy. What are the current obstacles and prominent problems in cervical spondylotic myelopathy? What is the latest technological development? What are the prospects for the future? The neurobiology of cervical myelopathy, pathological degeneration of spinal cord, advanced diagnostics, conservative treatments, surgical techniques and neurorehabilitation strategies for patients with neurological impairments will be discussed. Papers on pathophysiology, pathological anatomy, advanced diagnosis, conservative treatment, new surgical techniques, neurorehabilitation and supportive care are welcome.
