Advances in Research on Communication and Swallowing Difficulties Associated with Neurodegenerative Disease

Message from the Guest Editors

Being able to effectively communicate and to eat and drink are essential components of our everyday life. Communication and swallowing difficulties are commonly associated with a number of different neurodegenerative conditions. Therefore, a significant need to understand the nature of these conditions, the impact they have on people's lives, and how best to assess and treat these conditions. This Special Issue of *Brain Sciences* aims to present a collection of recent advancements in the area of communication and swallowing difficulties associated with degenerative neurological disease. Authors are invited to submit articles on original research and review articles on a broad range of topics including the following: the nature of communication or swallowing disorders associated with a specific neurodegenerative condition, the impact of communication or swallowing disorders associated with a specific neurodegenerative condition on people's lives, assessment methods for communication and swallowing disorders for people who have neurodegenerative conditions, and treatment approaches for communication and swallowing disorders associated with neurodegenerative conditions.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
