

Special Issue

Cognitive Impairment and Depression

Message from the Guest Editors

This Special Issue of *Brain Sciences* aims to present evidence from healthy and disease groups, highlighting the association between cognitive impairment and depression in different cohorts to include healthy adults and patients across the life course in addition to age-related studies. Some key objectives will be to identify (1.) factors explaining the association between cognitive impairment and depression at clinical and molecular levels; (2.) variations in measurement and assessment of cognitive impairment and depression in patient cohort studies; (3.) address the association from the perspectives of severity, and types of cognitive impairment and depression; (4) the specific and common patterns associated with depression and cognitive impairment; (5) the mechanism of potential treatments or interventions for depression and cognitive impairment; and (6) whether depression is the risk factor for transformation of cognitive impairment to dementia or AD.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
