Special Issue

Update on Deep Brain Stimulation: Technical Nuances and New Indications

Message from the Guest Editor

The field of Deep Brain Stimulation has advanced rapidly over the last three decades—from an esoteric intervention in a few selected centers to a widespread clinical approach used to treat a multitude of neurological, psychiatric, and behavioral conditions. Development of new indications and refinement of technical nuances necessitate regular update on this modality for the worldwide readership. We encourage studies from all fields to contribute to this Special Issue in order to promote knowledge Deep Brain Stimulation. Prof. Dr. Konstantin V. Slavin

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA 15260. USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYNDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
