

Special Issue

New Challenges in the Study of Cognitive Impairment in Parkinson's Disease

Message from the Guest Editors

This Special Issue aims to collect the latest findings in the field of cognitive impairments in Parkinson's disease (PD), focusing on the early detection of symptoms, the influence of individual differences, new therapeutic directions, and how technology and artificial intelligence can support the diagnostic process and the management of cognitive symptoms. We invite papers that delve into the following:

- The early detection of the onset of cognitive impairments and a better understanding of the underlying mechanisms;
- A better understanding of the protective role played by individual differences and other factors (such as reserve mechanisms and creativity);
- Innovative pharmacological and non-pharmacological approaches;
- How technology and artificial intelligence can contribute to the early detection and management of cognitive symptoms.

Multidisciplinary approaches are encouraged.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
