

## Special Issue

# Investigating the Interplay between Olfaction, Social Behaviour, and Individual Differences

### Message from the Guest Editors

A more holistic understanding of human behaviour can be achieved by investigating the interplay between physiology and psychology, rather than a singular focus on either. Therefore, the aim of this Special Issue is to highlight interdisciplinary research that focusses on how the interaction between our sense of smell and individual differences may influence, motivate, and predict human behaviour. In this series, we invite researchers investigating, for example, how our sense of smell may influence mate choice and the maintenance of romantic relationships, how odour aversions may motivate avoidance behaviour and which personality traits may predict olfactory ability. Submissions to this Special Issue are limited to papers that include some form of individual differences measure (e.g., questionnaires, behavioural, neuroimaging). Manuscripts that are exclusively focussed on olfaction research in general will not be considered.

### Guest Editors

Dr. Mehmet Mahmut

School of Psychological Sciences, Macquarie University, Sydney, NSW 2109, Australia

Dr. Laiquan Zou

Department of Psychology, School of Public Health, Southern Medical University, Guangzhou 510515, China

### Deadline for manuscript submissions

closed (31 August 2022)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

#### Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
