

Special Issue

Advances in Vision and Neuro-Ophthalmology: Retrospective and Perspective

Message from the Guest Editors

In this Special Issue of *Brain Sciences*, we will delve into systemic aspects of the organization, function, and neurological control of the eye, focusing on the pathophysiology of blinding diseases stemming from eye neurobiological dysfunction. Contributions can explore eye diseases in a range of animal models, as has historically been common, but studies showing a correlation with human eye diseases are preferred. This does not, however, rule out articles establishing a new visual or neurobiological paradigm unique to non-mammalian systems. Papers exploring theoretical models of eye diseases based on previously published experimental data are also welcome.

Guest Editors

Prof. Dr. Roberto Paes-de-Carvalho

Department of Neurobiology and Program of Neurosciences, Institute of Biology, Fluminense Federal University, Niterói, Brazil

Dr. Sriparna Majumdar

Computer Science Department, City College of San Francisco, San Francisco, CA, USA

Dr. Luis Pérez de Sevilla Müller

Biocient, Torrance, CA 90502, USA

Deadline for manuscript submissions

20 December 2026

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA
15260, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
