

Special Issue

Migraine and Sex Hormones

Message from the Guest Editors

Migraine is usually regarded as a female disorder; however, the reasons for the higher prevalence of migraines in women than in men are not fully known. Sex hormones could play an important role in the pathophysiology and treatment of migraines. Specific clinical entities, such as menstrual migraine, are strongly influenced by female sex hormones, while the role of male sex hormones in migraines is unclear. Our Special Issue aims to summarize the most recent insights into the relationship between migraines and sex hormones, to help inform clinical practice and design new research on the unanswered questions. We are soliciting review papers that cover the different aspects of the topic, including basic and clinical research.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
