

## Special Issue

# Neurofunctional and Neurochemical Signatures of Emotional and Cognitive Processes and Competencies

### Message from the Guest Editor

For the past decades, neuroimaging methods have provided us with the chance to investigate the neural underpinnings of cognitive, emotional, and even social processes. Based on this research, this Special Issue is dedicated to presenting a collection of high-quality theoretical/research articles providing new insights into neurofunctional and neurochemical signatures of these processes in healthy and clinical populations. We therefore welcome novel research findings from cognitive, affective, social, clinical, and computational neuroscience, not only investigating these signatures but also modulating them pharmacologically or via brain stimulation techniques. With regard to the format of papers, we will consider research articles, opinion/perspective articles, and review articles (systematic review, meta-analysis).

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

#### Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
