# Recent Advances in Neurodevelopmental Disorders

## Message from the Guest Editor

Dear colleauges, Neurodevelopmental disorders (NDDs) represent a group of complex and heterogeneous disorders characterized by impairment of growth and development of the brain often associated with impaired cognition, communication, adaptive behavior, and psychomotor skills. It is an umbrella term that can traverse, to varying degrees, diverse disease classifications, such us autism spectrum disorder, intellectual disability, attention deficit hyperactivity disorder, schizophrenia, bipolar disorder, etc. Multiple causes have been associated with NDDs, including genetic, environmental, infectious, and traumatic, among others, which in general do not operate alone but instead interact with each other. NDDs are a public health challenge due to the complexity and heterogeneity of the etiology in conjugation with high prevalence attained. It is crucial to provide researchers and clinicians with the most up-to-date information on the etiopathogenesis and therapeutic strategies for the patients as well as to shed light on the co-occurrence of various medical and behavioral conditions/symptoms.

# About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

### Editor-in-Chief

Prof. Dr. Stephen D. Meriney Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA 15260, USA

### Author Benefits

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYNDEX, PsycInfo, CAPlus / SciFinder, and other databases.

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

#### **Recognition of Reviewers:**

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
