Special Issue

Neuropsychology in Neurodegenerative Diseases

Message from the Guest Editor

This Special Issue invites original articles to update the knowledge on neuropsychology and neuropsychiatry in neurodegenerative diseases such as Parkinson's disease, atypical Parkinson's disease or Alzheimer's disease. Studies that assess cognitive functions such as learning, memory, attention, information processing, theory of mind or emotional recognition as well as intervention studies aiming to improve neuropsychological or neuropsychiatric complications in neurodegenerative disease are welcome. We specifically encourage novel strategies which enable and may even facilitate cognitive assessment in patients with neurodegenerative disorders. Studies that aim to shed light on the physiologic and metabolic mechanisms, such as oxidative stress and neuroinflammation or genetics in neurodegenerative diseases, are also welcome. Research areas may include but are not limited to the following: experimental psychology, developmental psychology, neuropsychology, neuropsychiatry, movement disorders, functional brain imaging, and computer science.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney
Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA 15260, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYNDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
