

Special Issue

Applications of Neurotechnologies in People with Walking Disabilities

Message from the Guest Editors

This Special Issue will focus on applications of neurotechnologies in people with walking disabilities, showing recent developments and achievements, not only in clinical environments, but also at home or outdoors. Topics of interest include, but are not limited to the following areas:

- Lower-limb robotic exoskeletons and neuroprosthetics: applications, cases of study, human-machine interfaces, clinical results, low-cost developments, etc.
- Brain-machine interfaces: invasive and non-invasive applications, interaction with exoskeletons and neuroprosthetics, clinical results, signal processing, etc.
- Neural Stimulation: applications based on brain, spinal or peripheral stimulation, invasive and non-invasive stimulation, etc.
- Electromyography: EMG techniques for the assessment of people with motor disabilities, applications in rehabilitation, etc.
- Research papers and case reports presenting original studies that fill the above criteria, as well as review articles that relate to the mentioned topics are welcome in this Special Issue.

Guest Editors

Dr. José M. Azorín

Dr. Mario Ortiz García

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
