Special Issue

Cognitive Neuroscience Approaches to the Psychopathology of Psychotic Disorders

Message from the Guest Editor

Brain abnormalities have been increasingly recognized in schizophrenia. They have been investigated through cognitive neuropsychological and neuroimaging approaches. Neurocognitive dysfunctions in psychotic disorders such as schizophrenia are particularly important as they not only shed light into the brain systems and processes involved in the disorder, but also in our understanding of some of the most disabling functioning impairments in the disorder. In addition to resource-intensive investigations, more portable and simpler neurocognitive markers may enable information to be collected in larger cohorts of patients under more real-life contexts. This issue invites contributions concerning the use of a range of neurocognitive approaches to investigate the psychopathology of psychotic disorders.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney
Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA 15260, USA

Author Benefits

High Visibility:
indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYNDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:
reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
