Primary Progressive Aphasia: What Happens to Speech and Language? What Can We Do to Help?

Message from the Guest Editors

Primary progressive aphasia is a neurocognitive disorder characterized by a progressive and predominant decline of language. Our knowledge of PPA has evolved rapidly in recent years, both in terms of our understanding of the condition and treatment as well as support options. For this Special Issue, we invite researchers to submit manuscripts describing original research and reviews of cutting-edge research on primary progressive aphasia. The aim and scope of this Special Issue will include research on the underlying mechanisms of core symptoms of PPA and research on promising approaches for the management and treatment of PPA, including behavioral, neurostimulation, and pharmacological treatments. We also wish to highlight the importance of interdisciplinary work and the involvement of people with lived experience throughout this Special Issue.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
