

Special Issue

Expanding the Foundation of Evidence-Based Practice in Sensory Integration

Message from the Guest Editors

This Special Issue serves to expand the evidence base of sensory integration. Ayres Sensory Integration (ASI) intervention has been repeatedly documented as an evidence-based practice in autism, but research about its evidence and utility beyond autism and across the lifespan is needed. Thus, the aim and scope of this Special Issue is to capture the current research on the application of ASI across populations, contexts, and the lifespan. This may include information within the general population as well as across diagnostic categories. Topics will be focused on sensory integration research related to assessment, outcomes, theory development, as well as studies that explore the mechanisms of action, advances in neuroscience, or neuroscience underpinnings. We will be soliciting applied and basic research, as well as review papers.

Guest Editors

Dr. Sarah A. Schoen
Dr. Shelly J. Lane
Dr. Anita Bundy

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
