

Special Issue

Innovative Treatments for Post-Traumatic Stress Disorder

Message from the Guest Editor

We welcome original research studies (open trials, randomized controlled trials), meta-analyses, reviews, and commentaries. Of special interest are studies related to novel uses of brain neuromodulation and stimulation, neurosurgical procedures, psychedelic compounds, novel medicines, anti-inflammatory strategies, virtual reality, wearable technologies, genetics, gut microbiota, artificial intelligence, longitudinal tracking and monitoring, and combination treatments. We will also consider studies related to psychotherapeutic interventions and public health policies.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
