Recent Advances in Neuro-Ophthalmology

Message from the Guest Editor

In recent years, neuro-ophthalmology has witnessed significant advances in the diagnostic and therapeutic aspects. Neuro-ophthalmology has come a long way from a specialty that “admires disease” to one that employs sophisticated and highly-technological tools for early diagnosis and evidence-based guidelines in management. This Special Issue of *Brain Sciences* will focus on recent advances in neuro-ophthalmology and will cover the specialty's state-of-the-art trends and current research advances. Authors are kindly invited to submit manuscripts that will address a broad range of topics including: optic neuritis (MS, MOG, NMO), idiopathic intracranial hypertension, the use of optical coherence tomography in neuro-ophthalmic (optic neuropathies and disc drusen) and neurologic diseases, diagnosis and treatment of Leber's hereditary optic neuropathy, emerging therapeutic options for thyroid eye disease and other inflammatory orbital disorders, and innovative medical and surgical therapeutic options for various neuro-ophthalmic conditions.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
