

Special Issue

Mapping the Invisible: Mechanisms and Markers in Cerebral Small Vessel Disease

Message from the Guest Editor

This Special Issue aims to bring together innovative research that explores the critical and often overlooked aspects of cerebral small vessel disease (CSVD). As a significant contributor to stroke, cognitive decline, and neuropsychiatric disorders, CSVD presents unique diagnostic and therapeutic challenges due to its subtle clinical signs and variability in radiological correlates. This issue showcases advancements in neuroimaging, fluid biomarkers, and neuropathological techniques that lead to earlier detection of CSVD, enabling better monitoring of its progression and a deeper understanding of the mechanisms driving vascular dysfunction, inflammation, and blood–brain barrier breakdown. By bridging basic science with clinical practice, this collection emphasizes the importance of interdisciplinary approaches to uncover the often-neglected clinical significance of CSVD.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA
15260, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
