# Addictive and Concomitant Psychiatric Disorders

### Message from the Guest Editors

There are high rates of concurrent psychiatric disorders among individuals with substance use disorders and addictive behavioral disorders. Addictive and concomitant psychiatric disorders confer significant negative outcomes and disabilities compared to either of these disorders alone. Research that enhances our understanding of the development of concurrent disorder, its course, and its treatment are scarce. We are inviting manuscripts with a wide range of focus on addiction and psychiatric disorders. These studies could include, but not limited to, novel research examining the epidemiology of specific psychiatric disorders within individuals with addiction, highlighting the impact, and its mechanism, of one disorder on the other, or evaluating a treatment addressing both disorders. Longitudinal studies that allow for causal inference of a disorder or treatment are of particular interest. Treatment programs and innovative mechanisms to diagnose and treat addictive and concomitant psychiatric disorder are encouraged. Systematic reviews and meta-analysis that evaluate a novel research question in this population are also welcomed.

### Guest Editors

Dr. Bernard Le Foll

Waypoint Centre for Mental Health Care, Centre for Addiction and Mental Health, University of Toronto, Toronto, ON, Canada

Dr. Ahmed Hassan

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

#### Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
