

## Special Issue

# Audiovisual Integration in Early Language Development

### Message from the Guest Editor

Speech is a sensory-rich stimulus, with information provided across multiple modalities. The reliable co-occurrence of cues serves to support speech comprehension and language learning, whether first or subsequent. However, despite the clear relationship between spoken language and the moving mouth that produces it, it remains unclear how sensitive early language learners—particularly infants—are to whether and how sight and sound co-occur. This Special Issue has been conceived to facilitate discussion of how and when the sight and sound of spoken language come to be processed as a unified signal. Moreover, it provides a forum for presenting theoretical and experimental advances in the study of early audiovisual speech perception and processing. Both behavioral and neurophysiological techniques are welcome. Heather Bortfeld

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

#### Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
