Mild Traumatic Brain Injury (mTBI): Medical Treatments and Complications

Message from the Guest Editors

Mild traumatic brain injuries (mTBI) and concussions can cause a wide range of impairments that affect balance, cognition, vision, sleep, the autonomic nervous system, and mood. Treatment of mTBI may include cognitive, vision, and vestibular rehabilitation, as well as medications for sleep, mood, or headaches. We invite submissions for a Special Issue of *Brain Sciences* for articles related to treatment or complications of mTBI. Original basic and clinical research, case reports, review articles, meta-analyses, and systematic reviews related to this are welcomed. As research related to mTBI and concussion is quickly evolving, we hope to enhance the understanding of the complications of this condition and how they are treated.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
