Editorial Board Members' Collection Series: Building Energy, Physics, Environment, and Systems III

Message from the Guest Editors

We are pleased to announce a new Collection titled "*Editorial Board Members' Collection Series: "Building Energy, Physics, Environment, and Systems" III*", which will collect papers invited by the Editorial Board Members. The aim of this Collection is to provide a venue for networking and communication between *Buildings* and scholars in the field of Building Energy, Physics, Environment, and Systems. All papers will be published in open access following peer review.

Guest Editors

Prof. Dr. Rafik Belarbi

Prof. Dr. Li Lan

Dr. Karam M. Al-Obaidi

Dr. Muhammad Shafique

Prof. Dr. Xinke Wang

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Current urban environments are home to multi-modal transit systems, extensive energy grids, a building stock, and integrated services. Sprawling neighborhoods are composed of buildings that accommodate living and working quarters. However, it is expected that the cities and communities of the future will face complex and enormous challenges, including maintenance, interconnectivity, resilience, energy efficiency, and sustainability issues, to name but a few. A smart city uses advanced technologies and a digital infrastructure to improve the outcomes in every aspect of a city's operations. A smart building optimizes the experience of occupants, staff, and management by using a modern and connected environment. Innovations in technology that can bring dramatic improvements to design, planning, and policy are critical in developing the cities and buildings of the future.

Editor-in-Chief

Prof. Dr. David Arditi

Construction Engineering and Management Program, Department of Civil, Architectural, and Environmental Engineering, Illinois Institute of Technology, 3201 South Dearborn Street, Chicago, IL 60616, USA

Author Benefits

High Visibility:

indexed within SCIE (Web of Science), Scopus, Ei Compendex, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Construction and Building Technology) /
CiteScore - Q1 (Architecture)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
