## Buildings Art, Sustainability, and Durability

### Message from the Guest Editors

*Buildings* (ISSN:2075-5309, IF 2.648, JCR-Q2) is currently running a [Special Issue](#) entitled “[Buildings Art, Sustainability, and Durability](#)”. As , and given your renowned expertise and significant contributions to this field, I would like to cordially invite you to submit a manuscript for consideration and possible publication in this [Special Issue](#). Some of the topics considered for this [Special Issue](#) include but are not limited to the following:

- Concrete structure durability;
- Circular construction;
- Solid waste utilization;
- Concrete material;
- Art;
- Sustainable building materials;
- Asphalt mixtures.

For scholars interested to submit papers to the [Special Issue](#), please click “[Submit to Special Issue](#)” or contact Astoria Yao: [astoria.yao@mdpi.com](mailto:astoria.yao@mdpi.com).

## About the Journal

### Message from the Editor-in-Chief

Current urban environments are home to multi-modal transit systems, extensive energy grids, a building stock, and integrated services. Sprawling neighborhoods are composed of buildings that accommodate living and working quarters. However, it is expected that the cities and communities of the future will face complex and enormous challenges, including maintenance, interconnectivity, resilience, energy efficiency, and sustainability issues, to name but a few. A smart city uses advanced technologies and a digital infrastructure to improve the outcomes in every aspect of a city's operations. A smart building optimizes the experience of occupants, staff, and management by using a modern and connected environment. Innovations in technology that can bring dramatic improvements to design, planning, and policy are critical in developing the cities and buildings of the future.

### Author Benefits

#### High Visibility:

indexed within SCIE (Web of Science), Scopus, Ei Compendex, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Construction and Building Technology) /  
CiteScore - Q1 (Architecture)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
