

Special Issue

Knowledge Management in Industry 5.0

Message from the Guest Editors

The development of technologies and different knowledge, set up a place and a role of Knowledge Management as an essential basis for the development of organizations. Pursuit for the most functional transmission of knowledge is not possible without improvement of knowledge about human behaviour, human potentials and possibilities. The goal of this special issue is to shed light on the new role of employees in different aspects of Industry 5.0, by unifying the requirements of technological innovation, artificial intelligence, cyber space and personal development.

About the Journal

Message from the Editor-in-Chief

It is our pleasure to inaugurate the new open access journal, *Businesses* (ISSN 2673-7116). *Businesses* is an international, peer-reviewed, open access journal (free for readers), which publishes original empirical, theoretical and management practice articles on all areas of business and other disciplines such as economics, psychology, sociology, anthropology and history. The aim is to provide a platform for research and findings of business studies and related topics, including entrepreneurship research, finance and accounting, economy and business, strategic management, business and industrial marketing, business and environment, business history, business law, etc. Some examples from my own research on these kinds of topics are papers on an industry management practices or entrepreneurial behaviour. There are many other topics that are also appropriate for *Businesses*.
