### Message from the Guest Editors

This Special Issue of *Cancers* will consist of selected papers from the 44<sup>th</sup> Congress of the European Radiation Research Society (<http://www.err2018.hu>) taking place in Pécs (Hungary), on 21–25 August, 2018. The European Radiation Research Society (ERRS; <http://www.errs.eu/>) was established in 1959 to encourage international cooperation and communication in all fields of radiation research. This Meeting will provide a forum enabling the exchange of scientific ideas among all participating scientists and clinicians of various countries within the field of radiation. The research topics of the meeting cover diverse and exciting fields of radiation science such as stem cell radiation biology; individual radiosensitivity and radiosusceptibility; radiation and exosomes; repair of radiation-induced DNA damage; radiation-induced inter- and intracellular signalling; radiation effects on the immune system.

Deadline for manuscript submissions:

**31 May 2019**

Oncology and Reproductive  
Medicine, The University of Texas  
MD Anderson Cancer Center,  
Houston, TX 77030, USA

## Message from the Editor-in-Chief

*Cancers* is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility:** indexed by the Science Citation Index Expanded (Web of Science) and BIOSIS Previews. Citations available in PubMed, full-text archived in PubMed Central. Indexed in BIOSIS Previews, Scopus and other databases.

**Rapid publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 18 days after submission; acceptance to publication is undertaken in 4.1 days (median values for papers published in the first six months of 2018).
