Greece

### Message from the Guest Editors

For this Special Issue of *Cancers*, we invite authors to submit contributions that provide novel findings in the field of cancer progression in epithelia. In particular (though not limited to), insights in developmental pathways, epigenetic and transcriptional changes, tissue repair and regeneration, extracellular matrix–epithelial cell communication, with respect to loss of epithelial integrity during early phases of carcinogenesis, are of great interest. Reviews that highlight new findings in the above areas are also welcome.

Deadline for manuscript  
submissions:

**closed (31 May 2023)**

## Message from the Editor-in-Chief

*Cancers* (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
