Message from the Guest Editors

Dear Colleagues,

In the ever-evolving landscape of cancer research, understanding the intricate dynamics of cancer stem cells and their interaction with the tumor microenvironment has become pivotal.

This theme is paramount as it offers a profound perspective on the underlying mechanisms driving cancer progression, metastasis, and therapy resistance. Cancer stem cells, with their unique ability to self-renew and differentiate, play a pivotal role in tumor heterogeneity and treatment challenges. Moreover, their interaction with the tumor microenvironment, encompassing factors such as the supportive stroma and the dynamic immune response, further shapes the disease's course.

We invite research and review papers in the broad field of cancer stem cells and tumor microenvironment. Topics can include but not are limited to tumor biology, metastasis, cell signaling, cancer stem cells, tumor microenvironment, tumor heterogeneity, plasticity, and therapeutic resistance. We look forward to your contributions.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
