Emerging Technologies for Early Detection of Cancer

Guest Editors:

Prof. Dr. Matthew J. Baker

Prof. Dr. Tom Curran

Prof. Dr. Bhargava Rohit

Deadline for manuscript
submissions:

closed (8 September 2023)

Message from the Guest Editors

This Special edition Issue aims to highlight research, both basic and translational, that can enable the future of cancer detection through the release and development of novel technologies. Studies presenting novel technologies that enable new insights and applications of existing technologies in novel ways are welcomed for submission to this Special Issue. We welcome submissions on emerging technologies from genomics, metabolomics, and multi-/pan-omic approaches that can enable access to the full range of information available for the detection and monitoring of cancers in cells, tissues, and bodily fluids.

Houston, TX 77030, USA

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
