Deadline for manuscript  
submissions:

**closed (30 November 2023)**

### Message from the Guest Editors

Dear Colleagues,

Sonodynamic therapy (SDT) is emerging as a new tool to fight cancer in a non-invasive fashion. SDT employs the interaction between low-intensity focused ultrasound and a non-toxic sound-sensitive chemical agent that accumulates in the tumoral area, which is called a “sonosensitizer”. In vitro studies and in vivo animal models have been conducted to deepen our understanding of this new technique to be applied against melanoma, breast cancer, gliomas, and other tumors. A transition from bench to bedside is currently ongoing, with numerous clinical trials approved and open to enrollment, tackling various forms of cancer. Despite its clinical translation mechanism of action, bioeffects, sensitizers, and ultrasound parameters need to be further understood. In fact, new sonosensitizers are under investigation, such as fluorescein and nanoparticles, while SDT is also being evaluated in combination with radiotherapy, chemotherapy, and immunotherapy in a multimodal synergistic perspective.

This Special Issue welcomes both original research articles and reviews.

## Message from the Editor-in-Chief

*Cancers* is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Oncology*) / CiteScore - Q1 (*Oncology*)
