Message from the Guest Editors

Dear Colleagues,

This Special Issue will focus on ovarian cancer metastasis. I would like to invite leaders in the field to discuss the role of specific tumor microenvironment components in the process of ovarian cancer metastasis with a focus on chemoresistance, treatment and detection. Secondly, I would like to invite leaders in field to discuss key processes involved in ovarian cancer metastasis with a focus on chemoresistance, treatment and detection. Authors should discuss the latest technological advances in these studies and compare findings to other cancers. In addition, I would like to ask the experts in field to submit review articles of high interest regarding ovarian cancer metastasis.

Dr. Hilary A. Kenny
Dr. Sumegha Mitra
Dr. Katherine Fuh

Message from the Editor-in-Chief

Cancers is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded (Web of Science) and BIOSIS Previews, Scopus and other databases. Citations available in PubMed, full-text archived in PubMed Central.

CiteScore (2018 Scopus data): 5.87, which equals rank 26/321 (Q1) in 'Oncology' and rank 24/191 (Q1) in 'Cancer Research'.
