

Women's Health and Gynaecological Cancers: From Nutrition and Environmental Factors to Novel Diagnostics and Therapies

Guest Editors:

Prof. Dr. Emmanouil Karteris

Prof. Dr. Ioannis Kyrou

Dr. Harpal S. S. Randeva

Prof. Dr. Eva Kassi

Deadline for manuscript
submissions:
closed (31 March 2026)

Message from the Guest Editors

We are producing this Special Issue given that gynaecological cancers, such as breast, ovarian, cervical and uterine cancers, are an important cause of cancer-related mortality globally. With an annual incidence of approximately 2.8 million worldwide, this group of malignancies constitutes a major public health problem and poses a significant disease burden in women. This Special Issue will focus on the latest therapeutic and diagnostic advancements in this field, including chemo-radiotherapy, immunotherapy, PARP inhibitors and current therapeutic advancements, including personalised medicine. We would also like to invite manuscripts relating to novel diagnostics, particularly using liquid biopsies (e.g., circulating tumour DNA, circulating tumour cells, miRNA and extracellular vesicles, to name a few). Finally, we also welcome papers on potential links between gynaecological cancers and obesity, nutrition and environmental factors.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
