Washington, DC 20007, USA

Deadline for manuscript
submissions:

closed (31 August 2024)

Message from the Guest Editor

Oncoplastic breast surgery has revolutionized the ways in which we approach breast cancer treatment, creating a perfect symbiosis between oncologic safety and aesthetic consideration. The evolution of this field has opened doors to treatment modalities that are not only focused on eliminating the disease but also preserving patients' body image and improving quality of life.

In this segment, we aim to compile the most recent developments in oncoplastic techniques from around the world. These writings, authored by experts in the field, provide state-of-the-art insights and promise to be an invaluable resource for surgeons, researchers, and anyone committed to enhancing breast cancer treatment outcomes.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic
Oncology and Reproductive
Medicine, The University of Texas
MD Anderson Cancer Center,
Houston, TX 77030, USA

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
