Life with Cancer, Inova Schar
Cancer Institute, Fairfax, VA
22031, USA

Deadline for manuscript
submissions:

31 January 2025

Message from the Guest Editors

Dear Colleagues,

Psychosocial care is critical to supporting the adjustment, coping, and quality of life of children and families from the time of diagnosis, throughout treatment, and into survivorship or through end-of-life and bereavement. Now a standard of care in pediatric oncology, psychosocial support is considered essential for all children and families. Interprofessional team members collaborate on assessment, intervention, education, and research to advance the science and practice of pediatric psycho-oncology.

This Special Issue in *Cancers* will highlight “Advances in Pediatric and Adolescent Psycho-Oncology,” including but not limited to studies focusing on social, emotional, and behavioral outcomes of childhood cancer; quality of life during active treatment, transition off treatment, or during survivorship; palliative care, end of life, and bereavement; and psychosocial interventions for patients and families (e.g., caregivers, siblings). We welcome quantitative and qualitative methods, and systematic or scoping reviews. Manuscripts that elevate the patient and family voice are strongly encouraged, as is interprofessional authorship.

Houston, TX 77030, USA

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Oncology) / CiteScore - Q1 (Oncology)
