Message from the Guest Editors

Dear Colleagues,

The worldwide increase in obesity constitutes a major medical challenge, with high BMI (body mass index) being an important risk factor for disease. In addition to cardiovascular disorders and development of diabetes, obesity increases the risk for developing cancer and several mechanisms have been proposed to explain this association.

This Special Issue will highlight the role of obesity as a risk factor for cancer, addressing the molecular mechanisms on the role of obesity in tumor initiation, maintenance and recurrence, cancer intrinsic metabolic alterations and tissue crosstalk with the tumor in obese conditions. The collected reviews will, thereby, shine a light on future therapeutic strategies targeting metabolic cancer etiologies.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Cancers is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded (Web of Science) and BIOSIS Previews. Citations available in PubMed, full-text archived in PubMed Central. Indexed in BIOSIS Previews, Scopus and other databases.

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 16.9 days after submission; acceptance to publication is undertaken in 4.2 days (median values for papers published in this journal in the second half of 2018).
