

Special Issue

Surgery for Cervical Cancer

Message from the Guest Editor

Welcome to our Special Issue on “Surgery for Cervical Cancer”. This Special Issue delves into the multifaceted aspects of surgical interventions aimed at combating cervical cancer. From innovative surgical techniques to adjuvant therapies, we explore the latest advancements in this field. Cervical cancer remains a significant global health challenge, and this Special Issue aims to shed light on the current state of surgical interventions, their efficacy, and their impact on patient outcomes. We welcome contributions that discuss surgical approaches, outcomes, complications, and future directions in the management of cervical cancer. Together, let us deepen our understanding and explore new frontiers in the fight against this disease. Kind regards,

Guest Editor

Dr. Jiantai Timothy Qiu

Department of Obstetrics and Gynecology, Taipei Medical University Hospital, Taipei 110301, Taiwan

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits
