

Special Issue

Perioperative Care in Gynecologic Oncology

Message from the Guest Editors

Potential topics of interest include but are not limited to enhanced recovery protocols, novel techniques concerning the surgical management of gynecologic oncology patients, novel aspects around immunonutrition, as well as predictive factors that may help to predict the course of these women. The issue covers the management of patients with ovarian, endometrial, cervical, vulvar, and breast cancer. We seek contributions in the form of original research articles and reviews, in hopes that leading experts will share their knowledge on the pathophysiology of perioperative recovery and the management of these patients.

Guest Editors

Dr. Nikolaos Thomakos

Department of Obstetrics and Gynecology Medical School, Alexandra Hospital, University of Athens, Athens, Greece

Dr. Vasilios Pergialiotis

Gynaecologic Oncology Unit, 1st Department of Obstetrics and Gynaecology, Alexandra Hospital, National and Kapodistrian University of Athens, 11528 Athens, Greece

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
