

Special Issue

Breast Conservation and Radiotherapy in the Era of De-Escalation of Breast Cancer Treatments

Message from the Guest Editor

This journal issue, titled "Breast Conservation and Radiotherapy in the Era of De-Escalation of Breast Cancer Treatments". Key topics include advancements in breast conservation techniques, the role of radiotherapy, and the evaluation of treatment outcomes.

This issue also explores personalized treatment plans based on individual patient characteristics and the latest clinical evidence. Articles on the following topics are welcome: updates on conservative surgical treatment and oncoplastic surgery techniques, psychological aspects related to the multidisciplinary treatment of breast cancer, news in the role of pre-operative imaging of breast cancer, de-escalation of radiotherapy treatment, hypofractionated radiotherapy, oncological outcomes of conservative treatment and mastectomy, neoadjuvant treatment, pre-operative localization of non-palpable tumors, trends in mastectomy and breast-conserving surgery, breast-conserving surgery in patients with multifocal disease, breast-conserving surgery after neoadjuvant chemotherapy, and breast-conserving surgery in the prophylactic or curative treatment of germline mutation carriers.

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
