

Special Issue

Survivorship Following Childhood, Adolescent and Young Adult Cancer

Message from the Guest Editors

This Special Issue of *Cancers* will be dedicated to the current challenges and opportunities in cancer survivorship care, a medical field of growing importance. It is crucial that we work to better understand late effects and their dynamics after cancer treatment, to develop risk-adapted, individualised survivorship care. While suitable survivorship care models are required to promote health surveillance in survivors, it is also essential that a return to normal life be supported in the best possible way, for example, through preventive and supportive measures. This Special Issue will present research results in the form of in-depth evidence-based findings on late effects and innovative care approaches, contributing to strategies for optimising cancer survivorship.

Guest Editors

Dr. Magdalena Balcerek

Department of Pediatric Oncology and Hematology, Charité-Universitätsmedizin Berlin, Corporate Member of Freie Universität Berlin and Humboldt-Universität zu Berlin, Augustenburger Platz 1, 13553 Berlin, Germany

Dr. Judith Gebauer

Cancer Survivorship Care Unit, University Hospital of Schleswig-Holstein, Lübeck, Germany

Deadline for manuscript submissions

20 January 2026

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
