Clinical Studies of Colorectal Cancer Surgery

Message from the Guest Editors

Surgery is a pivotal part of colorectal cancer treatment. Despite the growing utilization of adjunct therapeutic modalities, the implementation of surgical resection allows optimal source control. Current research efforts are focused on several aspects of colorectal cancer management, including enhancement of oncological outcomes, refinement of surgical techniques, the role of minimally invasive approaches, and the optimization of perioperative care. We are pleased to invite you to this Special Issue, entitled “Study on Clinical Studies of Colorectal Cancer Surgery”, of *Cancers*. This Special Issue aims to present current innovations in the surgical management of colorectal cancer while also addressing all future research directions. In this Special Issue, original research studies and review articles are welcome. Research topics may include, but are not limited to, the following:

- Surgical techniques for colorectal cancer;
- Improving oncological efficacy;
- Enhanced recovery protocols and perioperative management;
- Minimally invasive approaches.

Guest Editors

Dr. Konstantinos Perivoliotis

The Royal Marsden Hospital, 203 Fulham Road, Chelsea, London SW3 6JJ, UK

Dr. Ioannis Baloyiannis

University Hospital of Larissa, Mezourlo, 41110 Larissa, Greece

Deadline for manuscript submissions

25 May 2027

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
