

Special Issue

Genetic Analysis and Clinical Therapy in Head and Neck Cancers

Message from the Guest Editor

This Special Issue, “Genetic Analysis and Clinical Therapy in Head and Neck Cancers”, aims to provide a comprehensive platform for researchers and clinicians to explore the intricate relationship between genetic factors and clinical therapeutic approaches in the context of head and neck cancers. As advances in genomic research continue to unravel the complexities of cancer biology, understanding the genetic underpinnings of head and neck cancers has become crucial for developing targeted and personalized treatment strategies. This Special Issue invites contributions that bridge the gap between genetic insights and clinical applications, fostering a deeper understanding of the molecular mechanisms driving these cancers and facilitating the translation of genetic knowledge into effective therapeutic interventions. Join us in advancing the frontiers of knowledge in head and neck cancer research, with a focus on integrating genetic analysis into clinical practice.

Guest Editor

Dr. Alfonso Scarpa

Department of Otolaryngology, University Hospital, “San Giovanni di Dio e Ruggi d’Aragona”, 84131 Salerno, Italy

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
