

Special Issue

Insights from the Editorial Board Member

Message from the Guest Editor

This Special Issue aims to summarize and highlight the research results, opinions, and literature reviews of the Editorial Board members of *Cancers*. In this Special Issue, these members will share their views on current hot research topics, highlighting research trends and the latest innovations and novel findings in cancer research. This Special Issue aims to present basic, translational, and clinical studies on all tumor types, and topics of interest include, but are not limited to, the following:

- Cancer therapeutics;
- Cancer biomarkers;
- Precision medicine;
- Cancer genomics;
- Cancer immunology;
- Cancer biology;
- Clinical trials;
- Cancer epidemiology and prevention;
- Tumor microenvironment and metastasis;
- Cancer informatics.

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
