Special Issue

News and How Much to Improve in Management of Soft Tissue Sarcomas

Message from the Guest Editors

We are pleased to invite you to collaborate in this Special Issue of the Soft Tissue Sarcomas. This Special Issue will explore how the sarcomas subgroup relates to the scope of the journal. Original research articles and reviews are welcome. Research areas may include (but are not limited to) the following: immunotherapy in sarcomas, IA and sarcomas, 3D imaging in sarcomas, new surgical approaches in sarcomas, pelvic sarcomas, sarcomas of the cava veins and others venous locations, retroperitoneal sarcomas, medical gestion and referent centers in sarcomas, treatment of desmoid tumors, treatment approaches to metastasic sarcomas, the state-of-the-art in the medical management of sarcomas, etc. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok.

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
