

## Special Issue

# Serum Biomarkers to Monitor Cancer Progression and Response to Therapy

### Message from the Guest Editor

This Special Issue focuses on recent advances in the identification and clinical application of circulating biomarkers for cancer management. Serum biomarkers play a crucial role in the early detection of disease, real-time monitoring of tumor dynamics, and assessment of treatment efficacy. This Issue welcomes original research and review articles exploring novel biomarkers, analytical techniques, and validation studies that enhance personalized cancer care. By integrating molecular insights with clinical practice, it aims to promote the development of non-invasive tools for precision oncology.

## About the Journal

### Message from the Editor-in-Chief

*Cancers* (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

---

### Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
