

Special Issue

Rare Genitourinary Cancers

Message from the Guest Editors

We are pleased to invite you to contribute to the upcoming Special Issue of *Cancers*, titled "**Rare Genitourinary Cancers.**" Rare tumors of the genitourinary tract present unique clinical and research challenges due to their low incidence, biological heterogeneity, and limited evidence base. In recent years, progress in genomics, surgical innovation, and systemic therapies has provided new insights into these malignancies, yet much remains to be clarified to optimize outcomes for affected patients. This Special Issue aims to highlight the current state of the art and recent advances in the diagnosis, treatment, and multidisciplinary management of rare genitourinary cancers. We welcome original research articles, narrative or systematic reviews, case series, and technical notes that explore these topics across diverse clinical and academic settings. Suggested themes include, but are not limited to, penile cancer, testicular cancer, urethral cancer, adrenal malignancies, variant histology of kidney and bladder tumors, extramammary Paget's disease, and upper tract urothelial carcinoma. We look forward to your contributions.

Guest Editors

Dr. Luis G Medina

Department of Urology, Medical University of South Carolina (MUSC),
Charleston, SC, USA

Dr. Philippe E. Spiess

Department of Genitourinary Oncology, H. Lee Moffitt Cancer Center
and Research Institute, Tampa, FL 33612, USA

Deadline for manuscript submissions

15 August 2026

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
