

## Special Issue

# Pregnancy and Cancer: Special Considerations on Maternal and Fetal Implications

### Message from the Guest Editor

The Special Issue "Pregnancy and Cancer: Special Considerations on Maternal and Fetal Implications" delves into the complex intersection of cancer diagnosis and treatment during pregnancy. It explores the unique challenges faced by expectant mothers diagnosed with cancer and the implications for both maternal health and fetal development. We aim to cover topics such as the risks associated with various cancer treatments during pregnancy, the importance of multidisciplinary care involving oncologists and obstetricians, and the decision-making process regarding treatment options that balance maternal well-being with fetal safety. Additionally, we would like to touch upon the latest research advancements and guidelines aimed at optimizing outcomes for both mother and baby in these delicate situations emphasizing the need for careful risk assessment and shared decision-making to navigate the delicate balance between treating cancer effectively while minimizing risks to the pregnancy.

### Guest Editor

Prof. Dr. Liana Pleș

Department of Obstetrics and Gynecology, University of Medicine and Pharmacy Carol Davila, Bucharest, Romania

### Deadline for manuscript submissions

closed (31 December 2024)

## About the Journal

### Message from the Editor-in-Chief

*Cancers* is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
